About the Prosperity Now Scorecard

The *Prosperity Now Scorecard* is a comprehensive resource featuring data on family financial health and policy recommendations to help put all U.S. households on a path to prosperity. The Scorecard equips advocates, policymakers and practitioners with national, state, county and city data to jump-start a conversation about solutions and policies that put households on stronger financial footing across five issue areas: Financial Assets & Income, Businesses & Jobs, Homeownership & Housing, Health Care and Education.

OUTCOME MEASURES

The *Scorecard* ranks 58 outcome measures from best to worst; #1 is the most desirable, #51 is the least desirable. Data for an additional 4 measures are published but not ranked due to insufficient data at the state level. Issue area ranks are calculated by averaging the ranks of measures within the issue area; overall ranks are calculated by averaging all of the outcome measures ranks. Grades are given on a curve: states ranked 1-10 get As, ranked 11-20 get Bs, ranked 21-36 get Cs, ranked 37-47 get Ds and those ranked 48-51 get Fs.

* Indicates that the margin of error is greater than 25% of the estimate, and as such, this estimate is too imprecise to rank. Caution should be used when using this data.

** Indicates that estimate is unable to be ranked because the ranks are too closely clustered to say with confidence how the state compares to other states.

— Indicates that no data is available, or data is suppressed due to a margin of error that is greater than 50% of the estimate.

POLICY MEASURES

The *Scorecard* includes 53 policies organized into 36 groups. States are assessed based on whether they have adopted each policy; a ✓ indicates the state has adopted the policy; a ✗ indicates the state has not. Policy adoption is assessed on policies enacted during calendar year 2017.
